 SB3.01.39E/ By Appointment
 Nester et al. *Microbiology: A Human
 Perspective*

Prerequisites	BIO 2313. Concurrent enrollment in BIO 3722 is recommended.
Course Description	A comprehensive study of microorganisms, including their composition, morphology, growth, metabolism, classification, ecology, and significance in disease.
Testing and Grades	There will be four (4) mid-term exams and the lowest exam grade will be dropped. The three (3) remaining exams will provide 60% of the final grade with a comprehensive final providing the remaining 40%. There will be no make-up examinations. If you miss a mid-term exam, all remaining grades will be used. If the final exam is missed, arrangements should be made with the instructor with the proper documentation. Each student will be expected to have a clean, unwrinkled Parscore 8000 form and a #2 pencil for each examination. Your UTSA ID number is required to be on each form as well as the form letter of the examination if required. Omission of required information will result in an automatic zero.
Attendance & Conduct	You are expected to attend all classes and to read the required chapters in the textbook prior to class. During examinations, all headgear, calculators, PDAs, sunglasses/shades and other materials are to be stored. Cheating on examinations will not be tolerated. Late arrivals and early departures should only occur at the airport and not in the classroom. If you must arrive late or leave early, please do so as quietly and unobtrusively as possible. Cell phones and pagers are to be turned off during class.
Academic Dishonesty	Academic or scholastic dishonesty includes, but is not limited to <ol style="list-style-type: none"> 1. Cheating on a test or other class work 2. Plagiarism which is defined as appropriation of another's work and the unauthorized incorporation of that work in one's own written work offered for credit 3. Collusion which is the unauthorized collaboration with another person the preparing college work offered for credit
